

## Road marker posts

Plastika SV s.r.o. is the traditional producer and distributor of road marker posts and accessories in accordance with specifications laid down by the Czech Republic Ministry of transport.

**Compact non-divided road marker posts**, made with reflector glass or retroflex foil, are available in standard lengths of 120 or 150 cm, however, these may also be produced in other lengths.

**Crash barrier reflector posts** are made with reflector glass or retroflex foil. These posts are fitted onto a JDS steel bracket ( for crash barrier NH 4 ) or onto a KLASIC bracket.

**Plastic anchoring hob for road marker posts** is supplied along with plastic screw for fixing the post to the anchor.

**Crash barrier reflector** with orange and white reflector foil is fitted with screw, nut and washer to be attached to crash barrier eyelet.

**Plastic reflector**

**Retroflex foil**

**Basic types of post:**

length 1200 mm

length 900 mm  
with prong

highway post  
length 1500 mm

length 1000 mm with
